DEGREES

STUDY IN FRANCE

TESTS AND DEGREES
IN FRENCH AS
A FOREIGN LANGUAGE

Five countries host more than half of the world's international students: the United States, the United Kingdom, Australia, France and Germany. France hosts 343,400 international students, putting it in fourth place after the United States, the United Kingdom, Australia but before Germany. International students account for 12% of enrollments in French Higher Education.

FRENCH
AN INTERNATIONAL LANGUAGE

Spoken by 274 million people around the world, French is an official language of 32 states on 5 continents. With English and German, it is one of the working languages of the European Union, the third-most-common business language, and the second-most-common language of news. With 125 million learners of French and 900,000 teachers, it is, after English, the most widely taught language on the planet. Since 2001, the Council of Europe's CEFR has set reference levels for foreign-language proficiency. The CEFR has become Europe's standard for language learning, with 6 levels of proficiency for purposes of admission to French postsecondary institutions.

program, and the institutional framework of the proposed program of study in France. Criterion 4 deals with the importance of 'language proficiency, with assessment of applicants' proficiency in French, including applicants who show exceptional academic potential."

Several tests of French proficiency and diplomas in French language are accepted for purposes of admission into a French institution of Higher Education

> To enroll in the first year of a program in a university (Licence 1) or school of architecture, international students (from outside the European Union) must follow the so-called preliminary admission procedure, known as DAP. Applicants must demonstrate their language proficiency, normally by taking the TCF-DAP or earning a DELF B2 diploma (or higher). The TEF may be accepted in lieu of the TCF-DAP if the applicant scored at least 14/20 on the written portion of the TEF. Some universities accept the DUEF (Diplôme universitaire d'études françaises) for admission into the first year of university study (Licence 1).

TESTS AND DIPLOMAS IN FRENCH LANGUAGE REQUIRED FOR ADMISSION TO POSTSECONDARY PROGRAMS

The levels of academic achievement required to obtain an extended-stay visa for study in France were set forth in an interministerial circular (from the ministries of the Interior, Foreign affairs, and Higher education and research) dated January 27, 2006. The criteria included the candidate's educational level, the quality of the candidate's prior academic

> For enrollments in the third year of university study (Licence 2 or 3), in a Master's program, (Master 1 and 2), in a Doctoral program, or in one of France's Grandes Écoles, no uniform requirement applies.

Each institution is free to set its own criteria for French proficiency. Prospective students should inquire about the language requirements of the institutions of interest to them.

TCF (Test de connaissance du français - Test of knowledge of French)

The TCF, administered by the French Ministry of Education and the Ministry of Higher education, Research and Innovation, is a standardized test of general French designed by CIEP (Centre international d'études pédagogiques), a certifying organization that is a member of ALTE (the Association of Language Testers in Europe). The TCF satisfies the quality requirements of ISO 9001, version 2008, in all of its processes.
The TCF test of comprehension and the computer-based test of written expression may be taken on computer in some countries.

Test results are valid for 2 years. Candidates wishing to repeat the TCF or TCF-DAP must wait 30 days from the date of their prior sitting. www.ciep.fr/en/tcf-dap

> Study in France: levels required for applications for preliminary admission (the DAP procedure). A specific version of the TCF (TCF-DAP) is required for applications for preliminary admission (DAP). The TCF-DAP includes a mandatory test of written French. www.ciep.fr/en/tcf-dap
> Description of the TCF and TCF-DAP: www.ciep.fr/en/tcf
> Registration fees and locations: Candidates can take the TCF in 712 centers approved by CIEP. Centers are located in 126 countries, including France. To register, candidates should contact an approved center for information on testing dates and for the costs of the required and elective components of the test.
