

HYDRO 2025 SUMMER SCHOOL

28th June - 12th July 2025
LILLE, FRANCE

Willing to broaden your international experience within a vibrant community of global peers?

Join us for the 2nd edition of 'Water Resource Management: From Rock to Remediation'.

Our high-standard 60-hour training programme delving into the fundamental aspects of hydrogeology and water treatment.

Dedicated to high-level international students & scholars/professionals.

Coorganised by the Faculty of Science and Technology of the University of Lille and the International Academy Lille Hauts-de-France.

More details (programme, speakers, application process, fees, comfort pack included):
